CHAIRMAN'S STATEMENT

2024 was a transformational year for Firering, one in which we refocused our strategy and laid the foundations for scalable, long-term growth. This realignment marked a shift from a pure-play explorer into a dual-pronged business model that combines cash-generative production from industrial minerals with long-term value creation from our critical minerals exploration portfolio.

Central to this strategic evolution was our decision to prioritise the development of Limeco Resources Limited ("Limeco"), a vertically integrated quicklime production asset in Zambia. With over US\$100 million of historical investment and an advanced infrastructure base, including a Tier 1 limestone deposit, two-stage crushing circuit, and eight-kiln lime plant, production at this significant and strategically important asset is ramping up, targeting between 600 and 800 tonnes of quicklime per day in 2026.

Following the successful completion of a £2.3 million fundraising in May 2024, we were pleased to announce the execution of a share purchase agreement ("SPA") for the phased acquisition of an initial 20.5% interest in Limeco, with an option to increase our stake to 45% through additional tranches.

The strategic rationale for this was clear: the quicklime market in Zambia and the broader Central African Copperbelt is underserved and heavily reliant on high-cost imports from *inter alia* South Africa. Limeco presented a unique opportunity to meet rising domestic demand, particularly from Zambia's ambitious copper expansion, while generating early cash flow from its aggregate production to support the growth of the business.

Following extensive recommissioning and optimisation efforts throughout 2024, Limeco successfully fired the first of two new gasifiers and the first kiln in February 2025. An optimisation period followed, during which we fine-tuned throughput and product quality. Accordingly, having produced saleable quicklime with purity levels of 85-90%, exceeding typical metallurgical industry requirements, Limeco recorded its first commercial sales of high-purity quicklime in early June 2025.

As optimisation efforts continue to progress, Kiln 1 is now consistently producing commercial-grade quicklime at a rate of up to 50 tonnes per day, demonstrating both stability and reliability, and serving as a strong operational benchmark as we prepare to commission Kilns 2, 3 and 4. This phased, modular strategy is intentionally designed to de-risk expansion while maintaining quality and production discipline.

Limeco is not just a quicklime production asset; it is a fully integrated, zero-waste operation designed with efficiency and sustainability in mind. The limestone quarry feeds into a two-stage crushing circuit with a throughput of 300 tonnes per hour. Limestone is sorted by a double-deck screen to feed vertical kilns (+60mm to -90mm fraction) and by a triple-deck screen that processes the -60mm stream into three aggregate size fractions. Having reached nameplate production capacity of 30,000 tonnes per month in January 2025, these aggregate products are being sold to local industrial markets, providing a valuable revenue stream ahead of the ramp-up to full-scale quicklime production.

In addition, Limeco continued building other complementary income streams, including a logistics services agreement and the sale of ash to the concrete industry, to enhance Limeco's long-term commercial resilience and optimise the value of all site outputs. As part of this strategy, Limeco plans to construct an on-site cement plant, which will be fed from a separate deposit adjacent to its Tier 1 deposit and will utilise ash produced from its quicklime operations, further expanding its revenue base and supporting a circular, value-driven approach to resource use.

Limeco's operations are underpinned by a strong geological foundation. In November 2024, a maiden JORC-compliant Mineral Resource Estimate ('MRE') conducted by Earthlab confirmed a total limestone resource of 145.2Mt at 95.7% CaCO₃. This includes 11.8Mt in the Measured category, 55.4Mt in Indicated, and 78.0Mt in Inferred. The updated MRE, which included an adjacent 392.51-hectare exploration licence granted in September 2024, nearly doubles the tonnage from the previous non-JORC resource estimate and provides over 50 years of potential production at nameplate capacity. The resource is hosted across three domains - A, B, and C - with current operations focused on Domain A. However, Domains B and C offer long-term optionality and would support further future industrial applications like the planned cement plant.

Quicklime is a vital input across a range of industrial processes, including steel production, water treatment, construction, and agriculture. Its most strategic application, however, is in copper processing, an industry set for exponential growth due to copper's central role in clean energy technologies. In response to this global demand, the Zambian government has set an ambitious target to nearly quadruple national copper output from 821kt in 2024 to 3Mt by 2031. This objective appears well within reach, with Q1 2025 already recording a 30% year-on-year increase. Achieving this would propel Zambia from the world's 7th-largest to the 3rd-largest copper producer, placing considerable pressure on domestic supply chains and creating a compelling growth opportunity for Limeco.

Quicklime prices, although not transparently traded, have ranged from US\$137 to US\$221 per tonne over the past two years. With Zambia historically dependent on more expensive imports from *inter alia* South Africa, Limeco's domestic advantage, combined with its product quality and logistical efficiency, positions it to become the supplier of choice for Zambia's growing copper and industrial base. Due to commercial sensitivities, Firinging will only disclose spot pricing and customer information as required under regulatory obligations.

While Limeco has become our core focus, we remain highly confident in the long-term potential of our 90%-owned Atex Lithium Project in Côte d'Ivoire. Situated within a geologically prospective region and closely aligned with accelerating global demand for green energy technologies, Atex is well positioned to deliver significant value over the medium to long term.

In 2024, we completed a 3,753-metre RC drilling programme across 23 holes at Atex to extend the strike length of known lithium mineralisation by 122% to 800 metres. Our next phase of work will target expansion of the mineralised zone to the east and north, with the goal of delineating a maiden JORC resource.

Early in the year, we were delighted to welcome Remy Welschinger to the board as an Independent Non-Executive Director. Rémy is the Co-founder and President of Viridian Lithium SAS, and a Non-Executive

Director of the Zambia-focused copper explorer Arc Minerals Limited. Up until 2018, he was Head of Commodities Sales in Europe for Deutsche Bank and previously an Executive Director in the Fixed Income and Commodities division of Morgan Stanley in London.

Under the leadership of our CEO, Yuval Cohen, Firering retains day-to-day operational oversight at Limeco. He is supported by a skilled team, which includes former Limeco technical staff with intimate knowledge of the plant, as well as independent consultants with decades of industrial minerals experience.

We also benefit significantly from our strategic partnership with our major shareholder, Rina Group, and its affiliate Rompartner Ltd, which owns one of Israel's largest quicklime production facilities. Their contribution has added an additional layer of operational best practice and plant-specific insight that has helped us accelerate optimisation and commissioning.

As previously outlined, we raised £2.139 million in May 2024 through a placing, subscription, and retail offer to fund the initial acquisition of Limeco. This was followed in March 2025 by the agreement of an unsecured bridge loan facility of up to £1 million to provide working capital and support operational activity during Limeco's production ramp-up. In the same month, we completed a further fundraise of £2.014 million to meet the 30 April 2025 deadline for the SPA tranche payment, increasing our interest in Limeco to 20.5%. The offering was well supported with participation from four Firering board directors demonstrating strong and growing investor confidence in our strategy and our operational delivery.

In parallel, we submitted a commercial loan application to a leading Zambian bank to finance the completion of our Limeco acquisition. The facility, if successfully completed, would allow us to increase our stake in Limeco to up to 45% and repay the existing bridge loan, providing greater exposure to future cash flows without further equity dilution. A non-binding term sheet has already been signed, and, having satisfied the key condition of achieving first sales, we are optimistic about finalising the agreement in the near term.

As we look ahead, Firering stands at an exciting inflection point having transitioned from developer to producer, a significant milestone that marks the beginning of a new and value-generative chapter for the Company.

With the phased ramp-up of Limeco progressing well, early commercial revenues in hand, and a clear pathway to scaling production to full capacity in 2026, we are building the foundations of a profitable, resilient business. Combined with our long-term battery metals exposure through Atex, Firering now offers a unique blend of cash flow, growth, and future-facing strategic relevance.

On behalf of the Board, I would like to thank our shareholders for their continued belief in our vision and our operational teams in Zambia and Côte d'Ivoire for their commitment and execution. We move into the second half of 2025 with confidence, momentum, and clarity of purpose, and I look forward to updating the market as we continue to build Firering into a high impact, diversified player in the industrial and critical minerals sphere

COMPANY INFORMATION

Directors	Youval Rasin, Non-Executive Chairman Yuval Cohen, Chief Executive Officer Yehoshua Shai Kol , Chief Financial Officer Vassilios Carellas, Non-Executive Director (Independent) Rémy Welschinger, Non Executive Director (Independent - appointed 18 January 2024)
Secretary	Absolute Trust Nominees Ltd
Registered Office	38 Agias Fylaxeos, Nicolas Court First Floor, Office 101 P.C. 3025
Company Registration	HE 397429
Country of Incorporation	Cyprus

INFORMATION ON THE BOARD OF DIRECTORS

Youval Rasin, Non-Executive Chairman

Mr Rasin has held senior management positions in various companies within the Rina Group, a family holding company with diverse interests including agriculture, mining and hotels in Africa and Europe. Mr. Rasin is interested in StarEnergy SA which has undertaken construction of a 381MW gas turbine. Furthermore, Mr. Rasin has interests in Marine Carrier SA, Starten Limited, StarTen CI SA and Egoz Limited. He is also interested in StarAgro SA which is involved in the production of rubber and cacao plants. By profession, Mr Rasin is a qualified lawyer and has been active in Côte d'Ivoire since 2002, with 7 years' experience in agro-industrial projects including 12 years in the palm oil industry with Dekel Agri-Vision plc.

Yuval Cohen, Chief Executive Officer

Mr Cohen has 15 years of experience in mining operational management and was formerly operations manager of a global coltan mining and refining company with operations in Macedonia, Slovenia, Rwanda, Tanzania and Guinea Bissau, responsible for supply chain and logistics. Mr Cohen has previously held several management positions with BSG Resources in Sierra Leone (diamonds), Guinea (iron ore) and Macedonia covering diamond, iron ore, and nickel mining. Mr Cohen holds a Bachelor of Law from The College of Management Academic Studies in Israel.

Yehoshua Shai Kol, Chief Financial Officer

Mr Kol is a qualified Chartered Accountant with over 23 years' experience in finance and is a CPA & MBA graduate. He is a Co-founder of DekelOil plc (now called Dekel Agri-Vision plc) and a former KPMG corporate finance executive.

Vassilios Carellas, Independent Non-Executive Director

Mr Carellas is a natural resources professional with over twenty years of corporate and operations experience in the mining and exploration industry. Corporate experience includes the executive management and financing of two publicly listed exploration and development minerals companies, while operating experience gained in the general management of producing mines, mining operations and exploration activities. Mr Carellas is Chief Operating Officer of Arc Minerals Limited, which operates out of Zambia and is focused on copper/cobalt, and is quoted on AIM.

Rémy Welschinger, [Independent??] Non Executive Director

Rémy Welschinger is the Co-founder and President of Viridian Lithium SAS, which is focused on building the first lithium refining and conversion plant in France. Remy was until recently finance director of Arc Minerals Limited, the Zambia-focused copper explorer (and remains as a non- executive director). Up until 2018, he was Head of Commodities Sales in Europe for Deutsche Bank and previously, an Executive Director in the Fixed Income and Commodities division of Morgan Stanley in London.

DIRECTORS REPORT

The Directors present their annual report and the audited Financial Statements for the year ended 31 December 2024.

Principal Activities

Firering Strategic Minerals plc. is a Cyprus based holding company which is developing a portfolio of Lithium, Coltan-Tantalum-Niobium assets in Côte d'Ivoire, West Africa. The Group currently has the following subsidiaries which hold exploration permits:

- Limeco Resources Limited (acquired post period end on 18 May 2024) - 20.5% shareholding in Limeco Resources Limited, together with an option to acquire up to a further 24.5% shareholding.
- Atex Mining Resources SARL, in which the Group holds 90% of the issued shares and has an option to buy a further 10% interest.
- Alliance Minerals Corporation SARL, in which the Group holds 51% of the issued shares and has an option to buy a further 29% interest
- Apalex SARL, in which the Group holds a 100% interest
- Bri Coltan SARL, in which the Group holds a 75% interest.

Group Results

The Group results are set out later in this report and are stated in thousands Euros. The Group made an operating loss of €1.2 million (2023 - €2.8m loss). The Directors do not recommend the payment of a dividend (2023 - nil).

Review of the Business

A review of the business for the year is set out in the Chairman's Statement.

Future Developments

Future Developments are outlined in the Outlook section of the Chairman's Statement.

Going Concern

The Directors have prepared cash flow forecasts and budgets that show that, for a period of at least twelve months from the date of signing these Financial Statements, the Group expects to have sufficient resources to continue its business. Accordingly, the Directors believe that it is appropriate to prepare the Financial Statements on a going concern basis. See Note 1 for further details.

Events After the Reporting Period

Events after the Reporting Period are outlined in Note 21 to the Financial Statements.

Directors' Remuneration

Details of Directors' Remuneration are set out in the table below.

Director	2024			2023		
	Salary and Fees	Bonuses and Benefits	Total	Salary and Fees	Bonuses and Benefits	Total
	€'000	€'000	€'000	€'000	€'000	€'000
Youval Rasin	58		58	56		56
Yuval Cohen	86		86	143		143
Neil Herbert	-		-	29		29
Yehoshua Shai Kol	54		54	52		52
Vassilios Carellas	30			29		29
Remy Welschinger	34	15	49	-		-

Directors' Shares and Options

Details of Directors' interests as at 30 June 2025 in share options and warrants are set out in the table below:

Director	Number of Shares	Number of Options
Youval Rasin	16,442,891	868,854
Yuval Cohen	2,067,000	868,854
Remy Welschinger	2,689,138	868,854
Yehoshua Shai Kol	8,867,984	868,854
Vassilios Carellas	1,188,329	868,854

Significant Shareholdings

As at 30 June 2025, the Company had been notified of the following significant shareholdings in the ordinary share capital:

Shareholder	Number of Shares	%
Sebastian Marr	16,831,794	7.33%
Youval Rasin	16,442,891	7.16%
Rompartner Ltd	15,206,897	6.62%
Oberon Investments Ltd	8,181,125	3.56%
Nicholas Grace	8,620,690	3.75%
Yehoshua Shai Kol	8,867,984	3.86%
Lincoln Moore	6,578,120	2.86%

Corporate Governance

Audit and Remuneration Committees have been established and in each case comprise Shai Kol, Remy Welschinger (Chairman) and Vassilios Carellas.

The role of the Remuneration Committee is to review the performance of the executive Directors and to set the scale and structure of their remuneration, including bonus arrangements. The Remuneration Committee also administers and establishes performance targets for the Group's employee share schemes and executive incentive schemes for key management. In exercising this role, the terms of reference of the Remuneration Committee require it to comply with the Code of Best Practice published in the Combined Code.

The Audit Committee is responsible for making recommendations to the Board on the appointment of the auditors and the audit fee, and receives and reviews reports from management and the Company's auditors on the internal control systems in use throughout the Group and its accounting policies.

Suppliers' Payment Policy

It is the Group's policy to agree appropriate terms and conditions for its transactions with suppliers by means ranging from standard terms and conditions to individually negotiated contracts and to pay suppliers according to agreed terms and conditions, provided that the supplier meets those terms and conditions. The Group does not have a standard or code dealing specifically with the payment of suppliers.

Trade payables at the year end all relate to sundry administrative overheads and disclosure of the number of days purchases represented by year end payables is therefore not meaningful.

Directors' Indemnities

In accordance with the Companies (Audit Investigations and Community Enterprise) Act 2004, which came into force on 6 April 2005, the Company has indemnified the Directors against liability to third parties, and undertaken to pay Directors' legal costs as incurred, provided that they are reimbursed to the Company if the individual is convicted.

By Order of the Board

Youval Rasin, Non-Executive Chairman

Date: 30 June 2025

CHAIRMAN'S STATEMENT ON CORPORATE GOVERNANCE

Introduction

The Board of directors of the Company recognises the importance of sound corporate governance and applies The Quoted Companies Alliance Corporate Governance Code (2018) (the 'QCA Code'), which they believe is the most appropriate recognised governance code for a company with shares admitted to trading on the AIM market of the London Stock Exchange.

The QCA Code provides the Company with the framework to help ensure that a strong level of governance is maintained, enabling the Company to embed the governance culture that exists within the organisation as part of building a successful and sustainable business for all its stakeholders. The QCA Code has ten principles of corporate governance that the Company has committed to apply within the foundations of the business.

These principles are:

1. Establish a strategy and business model which promote long-term value for shareholders.
2. Seek to understand and meet shareholder needs and expectations.
3. Take into account wider stakeholder and social responsibilities and their implications for long term success.
4. Embed effective risk management, considering both opportunities and threats, throughout the organisation.
5. Maintain the board as a well-functioning balanced team led by the Non-Executive Chairman.
6. Ensure that between them the directors have the necessary up to date experience, skills and capabilities.
7. Evaluate board performance based on clear and relevant objectives, seeking continuous improvement.
8. Promote a corporate culture that is based on ethical values, respectful, responsible and non-discriminatory behaviour.
9. Maintain governance structures and processes that are fit for purpose and support good decision-making by the Board.
10. Communicate how the Company is governed and is performing by maintaining a dialogue with shareholders and other relevant stakeholders.

There follows a short explanation of how the Company applies each of the principles:

Principle One: Establish a strategy and business model which promote long-term value for shareholders

Firering will invest in the exploration, mining and processing of Limestone and Quicklime in Zambia, Lithium and Coltan in Côte d'Ivoire.

Quicklime: Post year end our production of Quicklime commenced following the commissioning of Kiln1. We intend to gradually commission the remaining 7 kilns gradually during 2025 and 2026.

Lithium and Coltan: While our priority focus Quicklime, we have exploration assets in Côte d'Ivoire related to Lithium, Tantalum and Niobium, which are listed as critical raw materials by the EU and are key materials needed in the manufacture of a large range of electronics and superalloys.

Our activities in Zambia and Côte d'Ivoire will deliver a positive impact on the economic development of the country, through the creation of jobs and the contribution our activities will have on local supply chains. Our first mineral production of Quicklime commenced post period end from our investment in Limeco Resources Ltd in Zambia. Zambia is a major producer of copper and Quicklime is needed in the flotation process. This means we have a potential local and regional customer base for our product as well as a potential local and regional customer base across the cement and concrete markets.

The Company has the current development strategy objectives:

1. Safely and responsibly operate its exploration, mining, Quicklime and Coltan processing plant in a cost efficient and safe manner.
2. Continue to develop and expand its relationship with local communities to enable job creation, technical and skills training.
3. Procure supplies and services where possible from local communities to help create and sustain jobs through active local supply chain support.
4. Ensure we maintain good order and standing with licensing authorities that are responsible for governing our exploration, mining and processing activities.
5. Continue carrying out initiatives for the benefit of the local communities in which it operate.
6. Grow our business in order to help increase employment and positively grow the economic development contribution our activities generate at both a local and national level. To the extent applicable, and to the extent it is able (given the current size and structure of the Company and the Board), Firing has adopted the Quoted Companies Alliance's Corporate Governance Code (2018).

The Board intends to comply with the recommendations on corporate governance made by the Quoted Companies Alliance as far as is practicable. Firing will hold regular board meetings as issues arise that require the attention of the Board. The Board is responsible for formulating, reviewing and approving the Company's strategy, budget, major items of capital expenditure and senior personnel appointments. Details of how the Company complies with the Code, and the reasons for any non-compliance, are set out below, together with the principles contained in the Code.

In light of the Company's size and nature, the Board considers that the current Board is a cost effective and practical method of directing and managing the Company. As the Company's activities develop in size, nature and scope, the size of the Board and the implementation of additional corporate governance policies and structures will be reviewed.

The Company has adopted a share dealing code for directors' dealings in securities of the Company, which is appropriate for a company admitted to AIM. The Directors will comply with Rule 21 of the AIM Rules relating to directors' dealings and will take all reasonable steps to ensure compliance by the Company's "applicable employees" (as defined in the AIM Rules).

Principle Two: Seek to understand and meet shareholder needs and expectations

The Board is committed to maintaining good communication and having constructive dialogue with its shareholders in order to communicate Firering's strategy and progress and to understand the needs and expectations of shareholders. Shareholders are encouraged to attend the Company's Annual General Meeting. Investors also will have access to current information on the Company through its website, www.fireringplc.com and via Vassilios Carellas, Non Executive Director and Yuval Cohen, CEO who will be responsible for shareholder liaison and available to answer investor relations enquiries. The Company has engaged the services of a third party Investor Relations firm.

The Company's annual report and Notice of Annual General Meetings ("AGM") will be sent to all shareholders and will be able to be downloaded from the Company's website. Copies of the interim report and other investor presentations will be made also available on the Company's website. Shareholders will be kept up to date via regulatory news flow ("RNS") on matters of a material substance and regulatory nature. Periodic updates will be provided to the market and any deviations to these updates will be announced via RNS.

At the AGM, separate resolutions will be proposed on each substantial issues. For each proposed resolution, proxy forms will be issued which provide voting shareholders with an opportunity to vote in advance of the AGM if they are unable to vote in person. The Company's registrars count the proxy votes which are properly recorded and the results of the AGM are announced through a Regulatory Information Service.

The Board is keen to ensure that the voting decisions of shareholders are reviewed and monitored and that approvals sought at the Company's AGM are as much as possible within the recommended guidelines of the QCA Code.

Beyond the AGM, the Executive Team and, where appropriate, other members of the Board will meet regularly with investors and analysts to provide them with updates on the Group's business and to obtain feedback regarding the market's expectations of the Group. Investor roadshows will be arranged throughout the year to meet with existing shareholders and potential new stakeholders to maintain, as much as possible, transparency and dialogue with the market. Additionally, investor presentations will be provided on the Company's website.

Principle Three: Take into account wider stakeholder and social responsibilities and their implications for long-term success

The Group's subsidiary operations in Côte d'Ivoire to date have invested exploration and technical work. One subsidiary, BRI Coltan SARL has completed an Environmental and Social Impact Assessment ("ESIA") which is in line with the International Finance Corporation ("IFC") requirements and Ivorian law. BRI Coltan SARL and the Group as a whole are committed to adopt and operate in accordance with the recommendations provided by the ESIA.

The aim of the ESIA report was to satisfy both legal and institutional obligations under the Ivorian environmental protection laws (Arrêté no 00972 du 14 Novembre 2007 relatif à l' application du décret no 96 894 du 8 Novembre 1996), and also comply with the IFC standards on the environment.

Principle Four: Embed effective risk management, considering both opportunities and threats, throughout the organisation

The Board is responsible for ensuring that procedures are in place and being implemented effectively to identify, evaluate and manage the significant risks faced by the Company. A list of the key operational and business risks is outlined on the Firering website.

In terms of internal processes, the Company operates pursuant to internally created processes and procedures, ensures all key strategy decisions are reviewed and approved by the Board and operates board committees for both the Audit Committee and Remuneration Committee.

Principle Five: Maintain the Board as a well-functioning, balanced team led by the Chair

All of the Directors are subject to election by shareholders at the first Annual General Meeting after their appointment to the Board and will continue to seek re-election at least once every three years. Directors will meet formally and informally both in person and by telephone. The Board is responsible to the shareholders for the proper management of the Group and will meet at least monthly to set the overall direction and strategy of the Group, to review scientific, operational and financial performance and to advise on management appointments.

All key operational and investment decisions are subject to Board approval. Remy Welschinger and Vassilios Carellas are considered to be Independent Directors applying the principles on independence set out in the UK Corporate Governance Code published by the Financial Reporting Council).

Principle Six: Ensure that between them, the directors have the necessary up-to-date experience, skills and capabilities

Our multi-disciplinary management team of executives, entrepreneurs, chemists, geologists can call upon more than 30 years of experience in the international mining and metal processing. Team members have driven the planning, implementation and management of mining and metals projects across several continents. The Board considers that all of the Executive and Non-Executive Directors are of sufficient competence and calibre to add strength and objectivity to its activities, and bring considerable experience in scientific, operational and financial development of mineral exploration and production companies.

The Board regularly reviews the composition of the Board to ensure that it has the necessary breadth and depth of skills to support the ongoing development of the Company. The Board ensures its knowledge is kept up to date on key issues and developments pertaining to the Company, its operational environment and to the Directors' responsibilities as members of the Board. During the course of the year, Directors receive updates from various external advisers on a number of corporate governance matters.

Audit, Remuneration and Nomination Committees have been established and in each case comprise:

- Audit Committee, Shai Kol (CFO), Remy Welschinger and Vassilios Carellas
- Remuneration Committee Shai Kol (CFO), Remy Welschinger and Vassilios Carellas
- Nominations Committee: Shai Kol (CFO), Remy Welschinger and Vassilios Carellas

All committees comprise a majority of independent non executive directors.

The role of the Remuneration Committee is to review the performance of the Board and Senior Management and to set the scale and structure of their remuneration, including bonus arrangements. The Remuneration Committee also administers and establishes performance targets for the Group's employee share schemes and executive incentive schemes for key management. In exercising this role, the terms of reference of the Remuneration Committee require it to comply with the QCA's Remuneration Committee Guidelines.

The Audit Committee will be responsible for making recommendations to the Board on the appointment of the auditors and the audit fee, and receives and reviews reports from management and the Company's auditors on the internal control systems in use throughout the Group and its accounting policies.

The Nomination Committee will be responsible is responsible for assessing new Directors and Senior management appointments.

The Board of Directors' biographies are set out in an earlier section.

Principle Seven: Evaluate Board performance based on clear and relevant objectives, seeking continuous improvement

Internal evaluation of the Board, the Committees and individual Directors is undertaken on an annual basis in the form of peer appraisal and discussions to determine the effectiveness and performance against targets and objectives, as well as the Directors' continued independence. As a part of the appraisal the appropriateness and opportunity for continuing professional development whether formal or informal is discussed and assessed. The Board may utilise the results of the evaluation process when considering the adequacy of the composition of the Board and for succession planning. Succession planning is formally considered by the Board on an annual basis in conjunction with the appraisal process.

Principle Eight: Promote a corporate culture that is based on ethical values and behaviours

The Board recognises that their decisions regarding strategy and risk will impact the corporate culture of the Company as a whole which in turn will impact Company's performance. The Directors are very aware that the tone and culture set by the Board will greatly impact all aspects of the Company as a whole and the way that consultants or other representatives behave. The Board seeks to maintain the highest standards of integrity and probity in the conduct of the Group's operations. These values are enshrined in the written policies and working practices adopted by all employees in the Group. An open culture is encouraged within the Group, with regular communications to staff regarding progress and staff feedback regularly sought. The Executive Directors regularly monitors the Group's cultural environment and seeks to address any concerns than may arise, escalating these to Board level as necessary. The Group is committed to providing a safe environment for its staff and all other parties for which the Group has a legal or moral responsibility in this area. The Group's

health and safety policies and procedures encompass all aspects of the Group's day-to-day operations. Issues of bribery and corruption are taken seriously. The Company has a zero-tolerance approach to bribery and corruption and has an anti-bribery and corruption policy to be put in place to protect the Company, its employees and those third parties to which the business engages with. The policy will be provided to staff upon joining the business and training is provided to ensure that all employees within the business are aware of the importance of preventing bribery.

Principle Nine: Maintain governance structures and processes that are fit for purpose and support good decision-making by the Board

Ultimate authority for all aspects of the Company's activities rests with the Board, the respective responsibilities of Board members that arise as a consequence of delegation by the Board. The Board will adopt appropriate delegations of authority which set out matters which are reserved for the Board. The Chairman is responsible for the effectiveness of the Board. The Board has overall responsibility for promoting the success of the Group. The Chief Executive Officer has day-to-day responsibility for the operational management of the Group's activities. The Board and in particular the independent non executive directors' will be responsible for bringing independent and objective judgment to Board decisions. There is a clear separation of the roles of Chief Executive Officer and Non Executive members of the Board. The Non Executive Chairman and the Non Executive Directors are responsible for overseeing the running of the Board, ensuring that no individual or group dominates the Board's decision-making. The Non Executive Chairman and the Non Executive Directors also have overall responsibility for corporate governance matters in the Group. The Chief Executive Officer has the responsibility for implementing the strategy of the Board and managing the day-to-day business activities of the Group.

The Board has established an Audit Committee, Remuneration Committee and Nominations Committee as outlined in Principle 6 above. The formal delegated duties and responsibilities comprise:

Audit Committee

The Audit Committee will meet at least three times a year and at such other times as the chairman of the Audit Committee shall deem necessary. The Audit Committee receives and reviews reports from management of the Company's auditors relating to the interim and annual accounts and keeps under review the accounting and internal controls which the Company has in place.

Remuneration Committee

The Remuneration Committee will meet at such times as the chairman of the Remuneration Committee or the Board deem necessary. The Remuneration Committee will determine and review (in consultation with the Board) the terms and conditions of service of the Executive and non-Executive Directors. The Remuneration Committee will also review the terms and conditions of any proposed share incentive plans, to be approved by the Board and the Company's shareholders.

Nominations Committee

Manages and approves nominations for board and senior leadership positions from start to finish.

Bribery Act 2010

The Bribery Act 2010 ("Bribery Act") prescribes criminal offences for individuals and businesses relating to the payment of bribes and, in certain cases, a failure to prevent the payment of bribes. Whilst the Directors believe that the Group conducts its affairs in a manner which means that either the Bribery Act will not apply to any member of the Group or which would in any event not result in any criminal offence being committed by a member of the Group or any of its directors, the Company has nonetheless established procedures designed to ensure that no member of the Group engages in conduct for which a prosecution under the Bribery Act may result.

Principle Ten: Communicate how the Group is governed and is performing by maintaining a dialogue with shareholders and other relevant stakeholders.

The Company places a high priority on regular communications with its various stakeholder groups and aims to ensure that all communications concerning the Group's activities are clear, fair and accurate. The Group's website will be regularly updated and users can register to be alerted when announcements or details of presentations and events are posted onto the website. The Board will commit to provide all party shareholder conference calls two times per year. The results of voting on all resolutions in future general meetings will be posted to Firering's website, including any actions to be taken as a result of resolutions for which votes against have been received from at least 20 per cent. of independent shareholders.

A new edition of the QCA Code will be effective for accounting periods commencing on or after 1 April 2024. For Firering this will be 1 January 2026. The QCA expects the first year to act as a transition period, so companies will have flexibility to build the capacity they need to apply its principles. During the transition period companies can focus more on using "explanations" on updated areas of the code to smooth the transition.

During 2025 the Board will be reviewing how to best comply with the new QCA Code and will report to shareholders and other stakeholders in due course. This report explains how our framework of governance has continued to support the Board's strategic activities during the year.

Youval Rasin

Non-Executive Chairman

Date: 30 June 2025

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing the Annual Report and the Financial Statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare Financial Statements for each financial year. Under that law the Directors have elected to prepare the Group Financial Statements under IFRS. The Financial Statements are required by law to give a true and fair view of the state of affairs of the Group and company and of the profit or loss of the Group for that period.

In preparing these Financial Statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departure disclosed and explained in the Financial Statements; and
- prepare the Financial Statements on the going concern basis, unless it is inappropriate to presume that the Group will continue in business.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the financial position of the Group and to enable them to ensure that the Financial Statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as each of the Directors are aware:

- there is no relevant audit information of which the Group's auditors are unaware; and
- the Directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website.

INDEPENDENT AUDITORS' REPORT

To the Shareholders of

FIRERING STRATEGIC MINERALS PLC.

Opinion

We have audited the consolidated financial statements of Firering Strategic Minerals PLC. and its subsidiaries ("the Group"), which comprise the consolidated statements of financial position as of 31 December 2024 and 2023, and the related consolidated statements of comprehensive income, changes in equity and cash flows for each of the years then ended, and the related notes (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as of 31 December 2024 and 2023, and the results of its operations and its cash flows for each of the years then ended in accordance with International Financial Reporting Standards as adopted by the European Union

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the

going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTE 1:- GENERAL INFORMATION

Firering Strategic Minerals PLC ("The Company") is a holding company for a group of exploration and development companies set up to focus on developing assets towards the ethical production of critical minerals. The Company was incorporated on 8 May 2019 in Cyprus. The address of its registered office is Ioanni Stylianou 6, 2nd Floor, Office 202, 2003, Nicosia, Cyprus.

The Company owns 75% of the issued share capital of Bri Coltan SARL ("Bri Coltan") a company incorporated in Cote d'Ivoire. The principal activity of the subsidiary is the exploration and development of mineral projects (in particular, columbite- tantalite).

On 1 March 2021, the Company purchased 51% of the issued share capital of Atex Mining Resources SARL ("Atex") a company incorporated in Cote d'Ivoire. The principal activity of Atex is the exploration and development of mineral projects (in particular, lithium and columbite-tantalite). Details of the acquisition are set out in Note 6.

On 22 November 2021, the Company purchased 80% of the issued share capital of Alliance Minerals Corporation SARL ("Alliance"), a company incorporated in Cote d'Ivoire. Alliance holds an exploration license request at an area bordering Atex. Details of the acquisition are set out in Note 6.

On 12 November 2021, the Company completed its Initial Public Offering ("IPO") and admission to trading on the AIM, a market operated by the London Stock Exchange ("the AIM"), by issuing 30,769,230 Ordinary shares at a price of £0.13 per share for a total cash consideration of €4.68 million (£4 million). The net proceeds after expenses were €4.25 million (£3.63 million).

On 2 November 2022 the Company signed an earn-in agreement with Ricca Resources Pty Limited ("Ricca"), an Australian diversified minerals company to advance the Atex Lithium-Tantalum Project ("Atex") and the adjacent Alliance exploration licence (once granted).

According to the agreement, Ricca will have the exclusive right to undertake and fund at Ricca's sole cost the exploration of the Atex Project and adjacent Alliance licence.

In order to undertake exploration of the Atex and Alliance Tenements, the Company shall transfer its entire shareholdings in the Atex agreement and the Alliance agreement to a new entity (joint venture) in which Ricca and the Company will have joint control.

Accordingly, in 2022 the Company ceased to consolidate the financial statements of Atex and Alliance and the investment in the joint venture is subsequently accounted for using the equity method.

See Notes 6 and 19 for further details.

In May 2024 the Company entered into a Share Purchase Agreement ("SPA") together with Clearglass Investments Limited ("Clearglass"), a related party, with the Vendor (Kai Group Ltd). The SPA replaces the option agreement entered into by the Company and Clearglass in respect of Limeco Resources Ltd ("Limeco") on 16 August 2023. Limeco is the owner of a limestone project comprising a limestone quarry and lime plant located in Zambia. Limeco was initially established by another company which invested approximately US\$100 million in establishing the limestone quarry and constructing the current lime plant. This investment was made via a shareholder's loan to Limeco, and this loan remains outstanding to the Vendor of Limeco.

Pursuant to the SPA, the Company is committed to acquire a 20.5% interest in Limeco and has an option to acquire up to an additional 24.5% interest resulting in an aggregate 45% interest in Limeco. The acquisition is to be made through payments in installments over a period ending in 2026 with a total price of up to US\$8,200,000.

The Company executed one installment of US\$1,500,000 and acquired an initial 10% in June 2024, and an additional installment of US\$1,016,667 and acquired 6.7% in December 2024. Accordingly, at the reporting date the Company holds a 16.7% interest in Limeco. See Notes 7 and 21 for further details:

Going concern:

The Group's operations are at an early stage of development and the continuing success of the Group will depend on the Group's ability to manage its mineral projects. Presently, the Group has no projects producing positive cash flow and the Group is likely to remain cash flow negative in the near future. The Group's ultimate success will depend on its ability to generate positive cash flow from active mineral production and mining operations in the future and its ability to secure external funding for its development requirements. However, there is no assurance that the Group will achieve profitability or positive cash flow from its operating activities,

The Board of Directors and Group management have assessed the ability of the Group to continue as a going concern. In respect of its current and future mineral projects, the funding status is as follows:

Atex and Alliance:

As described in Note 19, in 2022 the Company signed an earn-in agreement with an Australian diversified minerals company, Ricca, which agreed to fund at its sole cost these two exploration projects for a period that may extend to 4-5 years from the reporting date.

In 2023 Ricca did not complete a planned IPO and was unable to raise significant funds from other sources. This affected the liquidity position of Ricca such that Ricca was unable to fund these projects as planned. The Company is currently in discussions with Ricca as to the resolution of this issue. In any case, the Company continues to view these projects as viable and is evaluating various alternatives as to further financing for these projects.

Limestone:

As described above in Note 1 and in Note 7, the Company has entered into an agreement to acquire up to a 45% interest in a limestone quarry and production plant in Zambia. The acquisition is to be made through payments in installments over a period ending in 2026. As further described in Note 7, at the reporting date the Company holds 16.7% of Limeco.

In respect of its ongoing general activities, based on a review of the Group's budget and forecast cash flows, including funds raised in March 2025 as described in Note 21, there is a reasonable expectation that the Group will have adequate resources to continue its daily operations and meet

its obligations as they become due for at least a period of twelve months from the date of approval of the financial statements. Thus, the going concern basis of accounting has continued to be applied in preparing these financial statements.

NOTE 2:- ACCOUNTING POLICIES

The following accounting policies have been applied consistently in the financial statements for all periods presented, unless otherwise stated.

a. Basis of preparation of the financial statements

These financial statements of the Company have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS").

The financial statements have been prepared on a cost basis.

The Group has elected to present the profit or loss items using the function of expense method.

b. Consolidated financial statements:

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and can affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as a change in equity by adjusting the carrying amount of the non-controlling interests with a corresponding adjustment of the equity attributable to equity holders of the Company less / plus the consideration paid or received.

Upon the disposal of a subsidiary resulting in loss of control, the Company derecognizes the subsidiary's assets (including goodwill) and liabilities, derecognizes the carrying amount of non-controlling interests, recognizes the fair value of the consideration received, and recognizes any resulting difference (surplus or deficit) as gain or loss

c. Investments accounted for using the equity method:

The Group's investments in associates and joint ventures are accounted for using the equity method.

Under the equity method, the investment in the associate or in the joint venture is presented at cost with the addition of post-acquisition changes in the Group's share of net assets, including other comprehensive income of the associate or the joint venture. Gains and losses resulting from transactions between the Group and the associate or the joint venture are eliminated to the extent of the interest in the associate or in the joint venture. The cost of the investment includes transaction costs.

Goodwill relating to the acquisition of an associate or a joint venture is presented as part of the investment in the associate or the joint venture, measured at cost and not systematically amortized. Goodwill is evaluated for impairment as part of the investment in the associate or in the joint venture as a whole.

Losses of an associate in amounts which exceed its equity are recognized by the Company to the extent of its investment in the associate plus any losses that the Company may incur as a result of a guarantee or other financial support provided in respect of the associate.

For this purpose, the investment includes long-term receivables (such as loans granted) for which settlement is neither planned nor likely to occur in the foreseeable future.

d. Functional and presentation currency:

The local currency used in Cote d'Ivoire is the West African CFA Franc ("FCFA"), which has a fixed exchange rate with the Euro (€1 = FCFA 655.957). A substantial portion of the Group's expenses and expenditures for acquisitions is incurred in or linked to the FCFA or the Euro. The Group obtains certain debt financing in FCFA, or Euro and the funds of the Group are held in FCFA. Therefore, the Company's management has determined that the Euro is the currency of the primary economic environment of the Company and its subsidiaries, and thus its functional currency. The presentation currency is Euro.

e. Cash equivalents:

Cash equivalents are considered as highly liquid investments, including unrestricted short-term bank deposits with an original maturity of three months or less from the date of investment or with a maturity of more than three months, but which are redeemable on demand without penalty and which form part of the Group's cash management.

f. Property, plant and equipment:

Property, plant and equipment are measured at cost, including directly attributable costs, less accumulated depreciation, accumulated impairment losses and any related investment grants.

Depreciation is calculated on a straight-line basis over the useful life of the assets at annual rates as follows:

	<u>%</u>
Computers	33
Plant and equipment	18
Motor vehicles	33

g. Impairment of non-financial assets:

The Group evaluates the need to record an impairment of non-financial assets whenever events or changes in circumstances indicate that the carrying amount is not recoverable.

If the carrying amount of non-financial assets exceeds their recoverable amount, the assets are reduced to their recoverable amount. The recoverable amount is the higher of fair value less costs of sale and value in use. In measuring value in use, the expected future cash flows are discounted using a pre-tax discount rate that reflects the risks specific to the asset. The recoverable amount of an asset that does not generate independent cash flows is determined for the cash-generating unit to which the asset belongs. Impairment losses are recognized in profit or loss.

h. Intangible assets:

The Group has adopted the provisions of IFRS 6 Exploration for and Evaluation of Mineral Resources.

The Group capitalizes expenditures incurred in exploration and evaluation activities as project costs, categorized as intangible assets (exploration and evaluation assets), when those costs are associated with finding specific mineral resources. The Group has a policy to expense to profit or loss all short term (i.e., less than 12 months) rental of tools and other equipment, in the same period in which the relevant equipment is used. Expenditure

included in the initial measurement of project costs, and which are classified as intangible assets relate to the acquisition of rights to explore. Capitalization of pre-production expenditure ceases when the mining property is capable of commercial production. Project costs are recorded and held at cost and no amortization is recorded prior to commencement of production.

An annual review is undertaken of each area of interest to determine the appropriateness of continuing to capitalize and carry forward project costs in relation to that area of interest, in accordance with the indicators of impairment as set out in IFRS 6. Accumulated capitalized project costs in relation to (i) an expired permit (with no expectation of renewal), (ii) an abandoned area of interest and / or (iii) a joint venture over an area of interest which is now ceased, will be written off in full as an impairment to profit or loss in the year in which (i) the permit expired, (ii) the area of interest was abandoned and / or (iii) the joint venture ceased.

i. Financial instruments:

1. Financial assets:

Financial assets are measured upon initial recognition at fair value plus transaction costs that are directly attributable to the acquisition of the financial assets, except for financial assets measured at fair value through profit or loss in respect of which transaction costs are recorded in profit or loss.

The Group classifies and measures debt instruments in the financial statements based on the following criteria:

- The Group's business model for managing financial assets; and
- The contractual cash flow terms of the financial asset.

Debt instruments are measured at amortized cost when:

The Group's business model is to hold the financial assets in order to collect their contractual cash flows, and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. After initial recognition, the instruments in this category are measured according to their terms at amortized cost using the effective interest rate method, less any provision for impairment.

On the date of initial recognition, the Group may irrevocably designate a debt instrument as measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency, such as when a related financial liability is also measured at fair value through profit or loss.

Equity instruments and other financial assets held for trading:

Investments in equity instruments are measured at fair value through profit or loss. Other financial assets held for trading including derivatives are measured at fair value through profit or loss

2. Impairment of financial assets:

The Group evaluates at the end of each reporting period the loss allowance for financial debt instruments which are not measured at fair value through profit or loss.

The Group has short-term financial assets such as trade receivables in respect of which the Group applies a simplified approach and measures the loss allowance in an amount equal to the lifetime expected credit losses. An impairment loss on debt

instruments measured at amortized cost is recognized in profit or loss with a corresponding loss allowance that is offset from the carrying amount of the financial asset.

3. Financial liabilities:

Financial liabilities measured at amortized cost:

Financial liabilities are initially recognized at fair value less transaction costs that are directly attributable to the issue of the financial liability.

After initial recognition, the Group measures all financial liabilities at amortized cost using the effective interest rate method, except for financial liabilities measured at fair value through profit or loss.

j. Borrowing costs:

The capitalization of borrowing costs commences when expenditures for the asset are incurred, the activities to prepare the asset are in progress and borrowing costs are incurred and ceases when substantially all the activities to prepare the qualifying asset for its intended use or sale are complete. The amount of borrowing costs capitalized in a reporting period includes specific borrowing costs and general borrowing costs based on a weighted capitalization rate.

Exploration and evaluation assets can be qualifying assets. However, they generally do not meet the "probable economic benefits" test. Therefore, any related borrowing costs are generally recognized in profit or loss in the period incurred.

k. Fair value measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair value measurement is based on the assumption that the transaction will take place in the asset's or the liability's principal market, or in the absence of a principal market, in the most advantageous market.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities measured at fair value or for which fair value is disclosed are categorized into levels within the fair value hierarchy based on the lowest level input that is significant to the entire fair value measurement:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2 - inputs other than quoted prices included within Level 1 that are observable either directly or indirectly.
- Level 3 - inputs that are not based on observable market data (valuation techniques which use inputs that are not based on observable market data).

I. Share-based payment transactions:

Equity-settled transaction:

The cost of equity-settled transactions with employees is measured at the fair value of the equity instruments granted at grant date. The fair value is determined using an acceptable option pricing model.

As for other service providers, the cost of the transactions is measured at the fair value of the goods or services received as consideration for equity instruments granted.

The cost of equity-settled transactions is recognized in profit or loss together with a corresponding increase in equity during the period which the performance and/or service conditions are to be satisfied ending on the date on which the relevant employees become entitled to the award ("the vesting period"). The cumulative expense recognized for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest.

No expense is recognized for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which are treated as vesting irrespective of whether the market condition is satisfied, provided that all other vesting conditions (service and/or performance) are satisfied.

m. Changes in accounting policies - initial application of new financial reporting and accounting standards and amendments to existing financial reporting and accounting standards:

a. Amendment to IAS 1, "Presentation of Financial Statements":

In January 2020, the IASB issued an amendment to IAS 1, "Presentation of Financial Statements" regarding the criteria for determining the classification of liabilities as current or non-current ("the Original Amendment"). In October 2022, the IASB issued a subsequent amendment ("the Subsequent Amendment").

According to the Subsequent Amendment:

- Only covenants with which an entity must comply on or before the reporting date will affect a liability's classification as current or non-current.
- An entity should provide disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months from the reporting date. This disclosure is required to include information about the covenants and the related liabilities. The disclosures must include information about the nature of the future covenants and when compliance is applicable, as well as the carrying amount of the related liabilities. The purpose of this information is to allow users to understand the nature of the future covenants and to assess the risk that a liability classified as non-current could become repayable within twelve months. Furthermore, if facts and circumstances indicate that an entity may have difficulty in complying with such covenants, those facts and circumstances should be disclosed.

According to the Original Amendment, the conversion option of a liability affects the classification of the entire liability as current or non-current unless the conversion component is an equity instrument.

The Original Amendment and Subsequent Amendment are both effective for annual periods beginning on or after 1 January 2024 and must be applied retrospectively.

The application of the Amendments did not have a material impact on the Company's consolidated financial statements.

NOTE 3:- FINANCIAL RISK MANAGEMENT

a. Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk and credit risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

Risk management is carried out by the management team under policies approved by the Board of Directors.

1. Market risk

The Group is exposed to market risk, primarily relating to foreign exchange. The Company does not hedge against market risks as the exposure is not deemed sufficient to enter into forward contracts. The Company has not disclosed a quantitative sensitivity analysis for fluctuations in foreign exchange rates as the Directors are of the opinion that these fluctuations would not have a significant impact on the consolidated financial statements of the Company at the present time. The Directors will continue to assess the effect of movements in market risks on the

Group's financial operations and initiate suitable risk management measures where necessary.

2. Credit risk

Credit risk arises from cash and cash equivalents as well as outstanding receivables. To manage this risk, the Company periodically assesses the financial reliability of customers and counterparties.

The amount of exposure to any individual counterparty is subject to a limit, which is assessed by the Board of Directors.

The Company considers the credit ratings of banks in which it holds funds in order to reduce exposure to credit risk.

b. Capital risk management:

The Company's objectives when managing capital are to safeguard the Group's ability to continue as a going concern, in order to enable the Company to continue its material development activities, and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the issue of shares or sell assets to reduce debts.

The Company defines capital based on the total equity of the Company. The Company monitors its level of cash resources available against future planned operational activities and may issue new shares in order to raise further funds from time to time.

NOTE 4:- SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS USED IN THE PREPARATION OF THE FINANCIAL STATEMENTS

Estimates and assumptions:

The preparation of the financial statements requires management to make estimates and assumptions that have an effect on the application of the accounting policies and on the reported amounts of assets, liabilities, revenues and expenses. Changes in accounting estimates are reported in the period of the change in estimate.

Significant items subject to such estimates and assumptions are as follows:

Intangible assets – exploration and evaluation assets:

An annual review is undertaken of each area of interest to determine the appropriateness of continuing to capitalize and carry forward project costs in relation to that area of interest in accordance with the indicators of impairment as set out in IFRS 6. The annual review includes an assessment of budgeted and planned expenditures and indications of whether sufficient data exist to determine recovery of accumulated capitalized project costs.

NOTE 5:- DISCLOSURE OF NEW STANDARDS IN THE PERIOD PRIOR TO THEIR ADOPTION

IFRS 18, "Presentation and Disclosure in Financial Statements":

In April 2024, the International Accounting Standards Board ("the IASB") issued IFRS 18, "Presentation and Disclosure in Financial Statements" ("IFRS 18") which replaces IAS 1, "Presentation of Financial Statements".

IFRS 18 is aimed at improving comparability and transparency of communication in financial statements.

IFRS 18 retains certain existing requirements of IAS 1 and introduces new requirements on presentation within the statement of profit or loss, including specified totals and subtotals. It also requires disclosure of management-defined performance measures and includes new requirements for aggregation and disaggregation of financial information. IFRS 18 does not modify the recognition and measurement provisions of items in the

financial statements. However, since items within the statement of profit or loss must be classified into one of five categories (operating, investing, financing, taxes on income and discontinued operations), it may change the entity's operating profit. Moreover, the publication of IFRS 18 resulted in consequential narrow scope amendments to other accounting standards, including IAS 7, "Statement of Cash Flows", and IAS 34, "Interim Financial Reporting".

IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, and is to be applied retrospectively. Early adoption is permitted but will need to be disclosed. The Company is evaluating the effects of IFRS 18, including the effects of the consequential amendments to other accounting standards, on its consolidated financial statements.

NOTE 6:- ACQUISITION OF SUBSIDIARIES

a. Acquisition of Atex Mining Resources SARL:

On 1 March 2021, the Company purchased 51% of the issued share capital of Atex Mining Resources SARL ("ATEX") for a total consideration of 40m FCFA (€61 thousand). Atex holds a license that covers exploration rights for lithium in a certain area in Cote d'Ivoire. The license which was granted in 2017 was renewed in 2021 for a period ending in 2024.

In addition, the Company was granted an option to acquire a further total 39% of the issued share capital of Atex in two stages. The first stage is an option to acquire a further 16% during the 12 months following the acquisition for a total consideration of 210m FCFA (€320 thousand). The second stage is an additional option to acquire a further 23% during the 24 months following the acquisition for a total consideration of 300m FCFA (€450 thousand).

Pursuant to the agreement, it has been agreed that the Company will procure that the Seller is paid a net smelter royalty equal to 0.5% of net smelter returns, such royalty to be paid each trimester.

These royalties will be recorded when production commences, and the project generates net smelter returns.

At the date of acquisition, the exploration license and related capitalized exploration costs were the sole asset of Atex. Atex had no employees. Accordingly, the purchase transaction was accounted for as an acquisition of an intangible asset.

The Company determined that as of the acquisition date the fair value of the options to acquire an additional 39% interest in Atex was immaterial and accordingly no portion of the consideration paid was attributed to these options.

Pursuant to IFRS 3, the Company records the intangible asset and liability at their fair value on date of acquisition. Details of the net assets acquired, and the non-controlling interests are as follows:

	<u>Euro</u> <u>in thousands</u>
Intangible asset	120
Liabilities acquired	<u>(1)</u>
Net assets acquired	119
Non-controlling interest (49%)	<u>(58)</u>
Total purchase cost and cash paid	<u><u>61</u></u>

On 4th July 2022 the Company purchased an additional 26% of the issued shares in Atex. 10% of the issued shares in Atex were purchased in exchange for 1,158,200 Ordinary shares of the Company (with a value of £76,441 at the closing share price on 4 July 2022 of 6.6p per share; €88,672 based on £1 = €1.16). The additional 16% of the issued shares in Atex were purchased by way of exercising the first option under the agreement between Firering and Atex dated 31 March 2021 for a total consideration of c.€320,000. Subsequent to this acquisition, the Company held a 77% interest in Atex – see Note 19 for details of the purchase of an additional 13% interest in March 2023.

As these acquisitions resulted in a change of ownership interests in a subsidiary that was already under the control of the Company, they were accounted for as a change in the equity of the Company. The difference between the total consideration and the carrying amount of the non-controlling interest attributed to the interest acquired, in the amount of €378 was charged to the Reserve for Transactions with Non-Controlling Interests in equity. See Note 6c below regarding deconsolidation of Atex.

b. Acquisition of Alliance Minerals Corporation SARL:

On 22 November 2021, the Company purchased 51% of the issued share capital of Alliance Minerals Corporation SARL (“Alliance”) for a total consideration of €228,000, executing the first stage of the purchase agreement with Alliance Minerals Corporation SARL

(“Alliance”) and setting out the Company’s commitment to purchase a total of 80% of the entire issued share capital of Alliance. The payments for the acquisition of shares will take place in four stages as follows:

- 51% of the entire issued share capital of Alliance for a total consideration of 150 million FCFA (€228 thousand) to be paid within 10 days of Admission. As mentioned above, this stage was executed on 22 November 2021.
- 7.25% of the issued share capital of Alliance for 100 million FCFA (€152,000) following the analysis at least 1,000 tons of coltan, calculated based on the Auger drilling program.
- 7.25% of the issued share capital of Alliance for 100 million FCFA (€152,000) following the analysis at least 1,000 tons of coltan, calculated based on the RC drilling program.
- 14.5% of the issued share capital of Alliance for 200 million FCFA (€304,000) following a commercial reserve.

Pursuant to the agreement, it has been agreed that the Company will procure that the Seller is paid a net smelter royalty equal to 0.5% of net smelter returns, such royalty to be paid each trimester.

These royalties will be recorded when production commences, and the project generates net smelter returns.

Alliance has applied for an exploration license adjacent to the Atex project. At the date of acquisition, the license application was the sole asset of Alliance. Alliance has no employees. Accordingly, the purchase transaction is accounted for as an acquisition of an intangible asset. As of 31 December 2024, the application is still pending.

The Company is accounting for the commitment to purchase the additional 29% interest in Alliance as a forward purchase contract, and effectively for accounting purposes the Company has an 80% interest in Alliance. Accordingly, a liability in the amount of €130,000 has been recorded at the acquisition date based on the estimated timing of the future payments discounted at a rate of 24% (level 3 of the fair value hierarchy). The balance of the liability to the non-controlling interest in Alliance at 31 December 2024 is €248 thousand (2023 - €200 thousand). Subsequent to deconsolidation in 2022, this liability is included in the accounts of the joint venture - see Note 19. The interest (unwinding of the discount) in 2024 in the amount of €48 thousand was recorded as financial expense by the joint venture (2023 - €39 thousands recorded as financial expense by the joint venture).

See Note 6c below regarding deconsolidation of Alliance.

c. Deconsolidation of Atex and Alliance:

As described in Notes 1 and 19, in accordance with the earn-in agreement signed with Ricca in November 2022, the Company is to transfer its entire shareholdings in Atex and Alliance to a new entity (joint venture) in which Ricca and the Company will have joint control. Due to the loss of control, in 2022 the Company ceased to consolidate the accounts of Alex and

Alliance and commenced recording its investment in these companies held by the joint venture based on the equity method.

As of the date of loss of control, following are the assets, liabilities and non-controlling interests that have been deconsolidated:

	<u>Euro</u> <u>in thousands</u>
Cash	33
Other current assets	143
Property, plant and equipment	112
Intangible assets	2,062
Liability to non-controlling interest in subsidiary	)161(
NCI	<u>(116)</u>
Net – investment in joint venture (see Note 19)	<u><u>2,073</u></u>

NOTE 7:- INVESTMENT IN ASSOCIATE - LIMECO

As described in Note 1, in May 2024 the Company entered into a Share Purchase Agreement ("SPA") together with Clearglass, a related party, with the Vendor (Kai Group Ltd). The SPA replaces the option agreement entered into by the Company and Clearglass in respect of Limeco on 16 August 2023. Limeco is the owner of a limestone project comprising a limestone quarry and lime plant located in Zambia. Limeco was initially established by another company which invested approximately US\$100 million in establishing the limestone quarry and constructing the current lime plant. This investment

was made via a shareholder's loan to Limeco, and this loan remains outstanding to the Vendor of Limeco. According to the SPA, each acquisition of an equity interest in Limeco also provides the Company with an identical interest in the shareholder's loan.

Pursuant to the SPA, the Company is committed to acquire a 20.5% interest in Limeco for US\$3,550,000. The consideration shall be payable to the Vendor in 3 instalments over 12 months as follows:

1. US\$1,500,000 being payable no later than 30 June 2024 to acquire an initial 10% interest;
2. US\$1,016,667 payable no later than 31 December 2024 to acquire a further 6.7% interest; and
3. US\$1,033,333 payable no later than 30 April 2025 to acquire an additional 3.9% interest.

Clearglass will receive 2.5% of the issued shares of Limeco upon completion of the final payment due under the SPA as a result of the previous non-refundable US\$500 thousand fee paid under the prior option agreement.

The SPA includes the terms of the New Option, pursuant to which the Company will be granted an option to acquire up to 24.5% of Limeco for an aggregate consideration of US\$4,650,000 shall be exercisable in 5 tranches between July 2025 and July 2026 as follows:

- an option to acquire a 6.4% interest no later than 31 July 2025 for a consideration of US\$1,033,333;
- an option to acquire a 3.8% interest no later than 30 October 2025 for a consideration of US\$620,000;
- an option to acquire a 5.5% interest no later than 30 January 2026 for a consideration of US\$981,667;
- an option to acquire a 5.5% interest no later than 30 April 2026 for a consideration of US\$981,667; and
- an option to acquire a 3.3% interest no later than 31 July 2026 for a consideration of US\$1,033,333.

Clearglass will receive 2.5% of the issued shares of Limeco upon completion of the final payment due under the New Option as a result of the previous non-refundable US\$500 thousand fee paid under the prior option agreement.

The Company shall be entitled to accelerate any payment/acquisition under the SPA and New Option, in which circumstance the applicable payment shall be reduced by reference to a discount rate of 10% per annum, calculated daily, up to a maximum discount equal to what would be applied if a payment is made 4 months early.

In the event that the Company does not complete any payment due under the SPA, or otherwise fails to exercise any tranche of the New Option, Clearglass has agreed that it shall be responsible for making the relevant payment due to the Vendor, or, if applicable, exercise the New Option, and acquire the applicable Limeco shares in respect of that payment.

The Vendor will make up to US\$4 million of the consideration paid to it under the SPA and New Option available to Limeco as a shareholder loan to renovate the kilns at the Project.

Upon completion of the SPA and New Option and assuming the Company settles all the consideration under the SPA and the New Option, the Company will hold a 45% interest in Limeco, Clearglass will hold a 5% interest and the Vendor will hold a 50% interest. However, if any payment is not paid when due under the SPA (or under the terms of the New Option for the latest date by which the various tranches are exercisable), there shall be a 21-day cure period to remedy the missed payment, or the Vendor shall be entitled to terminate the SPA and the New Option. Additionally, in such circumstances the Vendor

shall have the option to buy Limeco shares from Clearglass, up to a limit of a 5% interest in Limeco (to the extent that such Limeco shares are held by Clearglass). Additionally, in the event of a change of control of both the Company and Clearglass, Clearglass will transfer 1 of the issued shares of the Company to the Vendor such that upon completion of the SPA and New Option, the Vendor holds a majority interest in Limeco.

The consideration of US\$1,500,000 (€ 1,403 thousand) and the consideration of US\$1,016,667 (€ 971 thousand) as described in (1) and (2) above were paid by the Company in June and December 2024 respectively, accordingly, at the reporting date the Company holds 16.7% interest in Limeco at a cost of €2,409 thousand which includes €35 thousand of transaction costs. See Note 21 for details regarding the acquisition of an additional 3.9% in April 2025.

Upon purchasing the 10% interest in Limeco completed in June 2024, the Company had the right to appoint one director out of 3 directors in the Limeco board and the CEO of Firering was designated to serve as the CEO of Limeco. Accordingly, the Company had significant influence in Limeco and from that date commenced application of the equity method in respect of its investment in Limeco.

Based on the total consideration of \$3.567 million payable for the 20.5% interest in Limeco and for the options to acquire an additional 24.5% interest in Limeco, the Company derived the amount of \$1,731 thousand (€1,619 thousand) attributable to the acquisition in June 2024. Of the aforementioned amount, €1,267 thousand was allocated to the 10% equity interest (shareholder loan) in Limeco and €352 thousand was allocated to the fair value of the options to acquire the additional 24.5% interest.

The fair value of the options was calculated based on Black-Scholes option pricing model. Significant input used was expected volatility of 40% - level 3 of the fair value hierarchy. These options are subsequently measured at fair value through profit or loss and are presented as Derivative Financial Assets in the statement of financial position. There was no material change in the fair value of these options as of 31 December 2024.

The difference between the total transaction value of €1,619 thousand and the actual amount paid in June 2024 of €1,403 thousand (\$1,500 thousand) totaling to €216 thousand was recorded as a current liability which will be offset from the following two installments in December 2024 and April 2025.

The value of the 6.7% equity interest in Limeco acquired in December 2024 amounts to €849 thousand.

As of 31 December 2024, the investment in Limeco is comprised of the following (Euros in thousands):

Investment in associate, at cost	2,116
Share of loss from date of acquisition	<u>(23)</u>
	2,093

As of the date the financial statements are approved, the purchase price allocation has not yet been finalized. The investment in Limeco is expected to be substantially attributable to the limestone quarry and plant.

NOTE 8:- PROPERTY, PLANT AND EQUIPMENT

	<u>Plant and equipment</u>	<u>Motor vehicles</u>	<u>Computers, peripheral equipment and furniture</u>	<u>Total</u>

NOTE 9:- CAPITAL NOTES

The capital notes are comprised of two notes in the face amounts of €393 thousand and €350 thousand, which do not bear interest and for which the repayment terms commencing from November 2021 are as follows:

Capital note of €393 thousand - (i) no repayment shall take place within two years of Admission (ii) repayment can only be made after the Company has achieved a market capitalization of £50 million (iii) the Company must have minimum cash on hand of 5x the outstanding debt, with sufficient funds for the Company to operate for a two-year period and (iv) any repayment will be subject to final approval of the Directors of the Company.

Capital note to shareholders and officers for services during the period from 1 June 2019 until 30 June 2021 totaling to €350 thousand (i) no repayment shall take place within two years of Admission (ii) the Company must have minimum cash on hand of 5x the outstanding debt, with sufficient funds for the Company to operate for a two-year period and (iii) any repayment will be subject to final approval of the Directors of the Company.

The combined carrying amount of the capital notes as of November 2021 is €507 thousand which amount reflects the estimated timing of the future repayments discounted at a rate of 10% (level 3 of the fair value hierarchy). The difference in the amount of €236 thousand between the face amount of the capital notes and the carrying amount as of November 2021 has been recorded as a contribution to equity. On 31 December 2024 the timing of the future repayment was re-estimated, accordingly, the carrying amount of the capital notes as of 31 December discounted at a rate of 10% is €351 thousand. The difference of €334 thousand between the revised discounted amount of the capital notes and the carrying amount as of December 2024 has been recorded as a contribution to equity. The balance of the capital notes at 31 December 2024 is

€351 thousand (2023 - €622 thousand). In 2024 interest expense on the notes (unwinding of discount) amounted to €62 thousand (2023 - €57 thousand).

NOTE 10 - LOAN FROM SHAREHOLDERS

In November 2024 several shareholders of the Company subscribed to unsecured Bridge Loan Notes ("Bridge loan") of €990 thousand (£825 thousands). The Bridge loan is for 18 months and bears interest at 15% per annum with interest payable semi-annually and a minimum 15% return to subscribers should the Bridge loan be repaid early within the next 12 months.

As of the reporting date the interest accumulated on the Bridge loan was €18 thousand. Certain directors of the Company participated in the Bridge loan. The amount due to them at the reporting date is €107 thousand (including €2 thousand of accrued interest). See also Note 17. The Bridge loan was issued to fund the 6.7% acquisition instalment of the Limeco quicklime project in Zambia of \$1,016,667, which was settled in December 2024. See Note 7.

NOTE 11:- EQUITY

a. Composition of share capital:

	<u>Authorized</u>		<u>Issued and outstanding</u>	
	<u>31 December</u>		<u>31 December</u>	
	<u>2024</u>	<u>2023</u>	<u>2024</u>	<u>2023</u>
	<u>Number of shares</u>			
Ordinary shares of €0.001				
par value each	<u>500,000,000</u>	<u>100,000,000</u>	<u>184,245,717</u>	<u>99,913,262</u>

In 2023, the Company issued 1,085,088 Ordinary shares to certain employees, consultants, and service providers for their services. The fair value of these shares on date of issuance amounted to €110 thousand and was recorded as share-based compensation in employee-related costs, contractors & service providers expenses.

In September 2023, the Company completed a placing on the AIM, a market operated by the London Stock Exchange ("the AIM"), by issuing 12,707,691 Ordinary shares at a price of £0.065 per share for a total consideration of €812 thousand (£701 thousands), [net proceeds of €756 thousands (£654 thousands)].

In the Company's annual general meeting held in 2024 it was resolved that the authorized ordinary share capital will be retroactively increased from €100,000 to €500,000 divided into 500,000,000 ordinary shares of €0.001 each.

In June 2024 the Company completed a placing on the AIM, a market operated by the London Stock Exchange ("the AIM"), by issuing 79,968,484 Ordinary shares at a price of £0.029 per share for a total consideration of €2,862 thousand (£2,319 thousand), net proceeds of approximately €2,775 thousand (£2,248 thousand).

In 2024, the Company issued 2,440,894 Ordinary shares to certain service providers for their services. The fair value of these shares on date of issuance amounted to €55 thousand and was recorded as service providers expenses.

b. Share option plan:

On admission, 12 November 2021, the Company adopted a share option plan under which it granted a total of 6,950,832 options to directors, employees and consultants of the Company.

Each option is exercisable to one Ordinary share at an exercise price of £0.13. The options vested immediately upon grant. The options expire 5 years after the date of grant. As of 31 December 2024, all of the options are outstanding.

The fair value of the options granted calculated based on Black-Scholes option pricing model was approximately €61 thousand.

In January 2024 a director was granted, as part of his remuneration plan, 868,854 options, each option is exercisable to one Ordinary share at an exercise price of £0.065. The options vested immediately upon grant. The options expire 5 years after the date of grant. As of 31 December 2024, all of the options are outstanding.

The fair value of the options granted calculated based on Black-Scholes option pricing model was approximately €15 thousand.

c. Warrants

On admission, 12 November 2021, the Company granted a total of 2,599,622 warrants to some service providers of the Company as part of their compensation for the services provided in the initial public offering process. Each warrant is exercisable to one Ordinary share at an exercise price of £0.13.

868,854 warrants expire 5 years after date of grant. 1,538,461 warrants expire 3 years after date of grant, and these warrants expired in November 2024.

The remaining 192,307 warrants expire 3 years after date of grant with 50% vesting once the 5 day volume-weighted average price ("VWAP") of the Company's shares has traded

at a 100% premium to the Placing Price (£0.13) and 50% vesting once the 5 day VWAP of the Company's shares has traded at a 200% premium to the Placing Price. None of these warrants have vested and these warrants expired in November 2024.

The fair value of the Warrants granted calculated based on Black-Scholes option pricing model was approximately €20 thousand.

The fair value of the warrants was recorded as part of the IPO fund-raising costs and deducted from share premium in equity.

On 21 September 2023, the Company granted a total of 581,538 warrants to some service providers of the Company as part of their compensation for the services provided in the fund-raising process. Each warrant is exercisable to one Ordinary share at an exercise price of £0.065. the warrants will expire 3 years after date of grant.

The fair value of the Warrants granted calculated based on Black-Scholes option pricing model was approximately €19 thousand.

The following table lists the inputs used in the measurement of the fair value of the warrants, in accordance with the Black and Scholes pricing model:

	Warrants for 3 years
Risk-free interest rate (%)	4.42%
Dividend yield (%)	0%
Expected volatility (%)	58%
Expected term (in years)	3

The fair value of the warrants was recorded as part of the fund-raising costs and deducted from share premium in equity.

On 28 May 2024, the Company granted a total of 2,351,379 warrants to some service providers of the Company as part of their compensation for the services provided in the fund-raising process. Each warrant is exercisable to one Ordinary share at an exercise price equal to the fund-raising price of £0.029. the warrants will expire 3 years after date of grant.

The fair value of the Warrants granted calculated based on Black-Scholes option pricing model was approximately €24 thousand.

The following table lists the inputs used in the measurement of the fair value of the warrants, in accordance with the Black and Scholes pricing model:

	Warrants for 3 years
Risk-free interest rate (%)	4.31%
Dividend yield (%)	0%
Expected volatility (%)	38%
Expected term (in years)	3

The fair value of the warrants was recorded as part of the fund-raising costs and deducted from share premium in equity.

On 15 November 2024, the Company granted a total of 72,727 warrants to some service providers of the Company as part of their compensation for the services provided in the subscription of the Bridge Loan Notes (See Note 11). Each warrant is exercisable to one

Ordinary share at an exercise price of £0.0495 which is equal to the spot price at the date of grant. The warrants will expire 3 years after the date of grant.

The fair value of the Warrants granted calculated based on Black-Scholes option pricing model was approximately €1 thousand.

The following table lists the inputs used in the measurement of the fair value of the warrants, in accordance with the Black and Scholes pricing model:

	Warrants for 3 years
Risk-free interest rate (%)	4.21%
Dividend yield (%)	0%
Expected volatility (%)	38%
Expected term (in years)	3

The fair value of the warrants was deducted from share premium in equity.

- d. Capital reserve is comprised of transaction with non-controlling interests at the amount of €294 thousand, see Note 19

NOTE 12:- GENERAL AND ADMINISTRATIVE EXPENSES

	Year ended 31 December	
	2024	2023

NOTE 18:- INVESTMENT IN JOINT VENTURE (Cont.)

On 2 November 2022 the Company signed an earn-in agreement (the Agreement") with Ricca Resources Pty Limited ("Ricca"), an Australian diversified minerals company to advance the Atex Lithium-Tantalum Project ("Atex") and the adjacent Alliance exploration licence (once granted).

According to the Agreement, Ricca will have the exclusive right to undertake and fund at Ricca's sole cost the exploration of the Atex Project and adjacent Alliance licence for up to US\$18.6 million (€17.4 million). The total amount of US\$18.6 million to be paid by Ricca pursuant to the Agreement includes:

- US\$1million (€977 thousand) cash consideration (received in November 2022); and
- issue of ordinary shares of Ricca to the value of AUD \$1million (€637 thousand) upon the earlier of: its planned IPO on the Australian Securities Exchange (ASX), or by 31 January 2024. The shares shall be issued at the completion price of the IPO or at a price per share equal to the latest price used in a fund raising carried out by Ricca prior to that date, by 31 January 2024 .
In March 2024, the Company received 20,000,000 shares in Ricca at an issue price of AUD\$0.05 with a value of AUD\$1.0 million. The Shares have been issued pursuant to the Agreement following Ricca not having completed an IPO on the ASX by 31 December 2023 and in settlement of the non-current receivable in the amount of €637 thousand. The Ricca Shares were issued at a Ricca pre money valuation of c.AUD\$7.96 million, representing its value at its most recent funding round in May 2023. Following the settlement Firering holds 20,00,000 shares in Ricca which represents c.11.2% of Ricca's issued share capital. As of 31 December 2024 there is no information available that would indicate there has been a material change in the carrying amount of the shares in Ricca.
- Funding and completing four stage earn-in of up to 50% equity interest in the Project through the funding of up to US\$14.7million (€13.8 million), with the aim of achieving a Definitive Feasibility Study ("DFS") on the Project. Beyond the US\$17 million expenditure to be spent to advance the Project, Ricca has agreed to fund a further US\$2 million (€1.9 million) (to take total expenditure to US\$19 million (€17.8 million) if the JORC inferred Mineral Resource Estimate ("MRE") surpasses 20m tones at the concentration of 1.0% of Li₂O.

In order to undertake exploration of the Atex and Alliance Tenements, the Company has an SPV (FH Coltan CI-III SARL which changed its name to Marvella SA, hereafter "Marvella") to which the Company shall transfer its entire shareholdings in the Atex agreement and the Alliance agreement, including the forward purchase obligation (see Note 6).

As of the date of the financial statements the Company is in the process of implementing the above transfers.

The Company holds 100% of the equity interest of Marvella as of the date of the financial statements and will continue to hold the majority of the equity interest until the completion of stage 4 of the earn-in period. However, according to the shareholders' agreement signed with Ricca as of the date of the Agreement, the Company cannot unilaterally make decisions on the significant relevant activities of Marvella, as they are driven by the Board and the Joint operating committee of Marvella which consists of equal representation (joint control) of both the Company and Ricca.

NOTE 19:- INVESTMENT IN JOINT VENTURE (Cont.)

Accordingly, the Company ceased to consolidate the financial statements of Atex and Alliance (which are being transferred to Marvella) as of the date of the Agreement – see Note 6.

The investment in Marvella is considered a joint venture. Accordingly, commencing from the date of the Agreement, the investment in the joint venture is accounted for using the equity method in accordance with IAS 28.

Summarized financial data of the joint venture:

	31 December	
	2024	2023
	Euros in thousands	
Statement of financial position of joint venture at reporting date:		
Current assets	69	203
Property, plant and equipment	29	82
Intangible assets	3,828	3,103
Current liabilities	(19)	(23)
Liability to non-controlling interest in subsidiary	(248)	(200)
Loan from Firering	(2,992)	(2,424)
Net Assets	667	741
Equity		
Non-controlling interests	1,023	1,023
Equity attributable to equity holders of the joint venture;		
Capital reserve(1)	(243)	(243)
Accumulated deficit	(113)	(39)
Total equity	667	741
Investment in joint venture (2)	2,636	2,142

(1) In March 2023 Marvella exercised the remaining existing option originally between Firering and Atex's shareholder and purchased an additional 13% of the issued shares in Atex and reached a total holding of 90% in Atex for a total consideration of €259 thousand. According to the agreement with Ricca Resources, Ricca paid €200 thousand and the balance of €59 thousand was funded by the Company. Marvella recorded the difference between the total consideration and the carrying amount of the non-controlling interest in the amount of € 243 as a charge to capital reserve in equity.

(2) Investment in joint venture comprised of:

Loan to joint venture	2,992	2,424
Equity attributable to equity holders	(356)	(282)
Total	2,636	2,142

In 2024, the joint venture had no revenues and incurred certain expenses, including financial expenses of €48 thousand in respect of the liability to non-controlling interest in subsidiary (€39 thousand in 2023), see Note 6b.

For the year ending 31 December 2024, the joint venture incurred exploration (drilling) expenditures of approximately €725 thousand which were funded by Firering. In 2024 Ricca did not fund any exploration expenditures of the joint venture. In 2023 Ricca funded exploration expenditures of the joint venture in the amount of €681 thousand.

NOTE 20:- OTHER PAYABLES

31 December

	2024	2023
	Euros in thousands	
Accrued expenses	115	177
Employees and payroll accruals	264	96
Liability under share purchase agreement of associate	59	-
Other accounts payable	15	47
	<u>453</u>	<u>320</u>

NOTE 21:- EVENTS AFTER THE REPORTING DATE

1. On 21 March 2025 the Company completed a placing on the AIM, a market operated by the London Stock Exchange ("the AIM"), by issuing 43,916,054 Ordinary shares at a price of £0.035 per share for total consideration of c. €1,836 thousand (£1,537 thousand), net proceeds of approximately €1,684 thousand (£1,410 thousand).
In addition, the Company has raised, in aggregate, gross proceeds of £477 thousands (€475 thousand net of raising costs) through the conditional placing of 13,628,570 new Ordinary Shares in a Subscription at the Placing Price. The conditional placing is subject to approval by shareholders of a resolution to increase the Company's share capital authority in a general meeting. It is expected that such authority will be sought at the Company's 2025 Annual General Meeting following publication of the Annual Report for the year ended 31 December 2024.
2. In April 2025 the Company executed the third tranche under the Share Purchase Agreement together with Clearglass, a related party, with the Vendor (Kai Group Ltd), and paid the consideration of US\$1,033,333 (€ 953 thousand) and acquired an additional 3.9% interest in Limeco. As of the date of approval of these financial statements the Company purchased a total of 20.6% of Limeco. See also Note 7.
